## Paradigms of Social Order: From Holism to Pluralism and Beyond

14 December 2021 15:00 - 16:30h

Online (via Zoom)

Sergio Dellavalle's "Paradigms of Social Order" (Palgrave Macmillan 2021) provides a systematic outline of the diverse theories on order, an elementary principle of society. His structuring these theories into different paradigms enables Dellavalle to illustrate 'paradigmatic revolutions' with profound impact on our thought of societal order. Join us in discussing Professor Dellavalle's arguments and his assessment of those strains of thought most promising in confronting modern issues on a global scale.

Discussants:

- Prof. Dr. Sergio Dellavalle (University of Turin, MPIL)
- Prof. Dr. Jochen von Bernstorff (University of Tübingen)
- JProf. Dr. Matthias Goldmann (Goethe-University Frankfurt, MPIL)
- Dr. Dana Schmalz (Friedrich Schiller University Jena, MPIL)

Moderator: Alexandra Kemmerer (MPIL)
